INTRODUCTION

This report was compiled from the ANNUAL PUBLIC LIBRARY STATISTICAL REPORTS filed with the Connecticut State Library for the year ending June 30, 1983.

In order to receive a State Aid payment, public libraries are required by law to submit a completed statistical report to the State Library each year. This report contains statistics from 189 public libraries located in 160 towns.

Five towns in Connecticut have no public library: Barkhamsted, Bozrah, Colebrook, Franklin, and Lisbon. Six libraries did not apply for State Aid during 1982-83, but one of those did send in statistics for inclusion in this report.

This report was compiled using an IBM PC XT and Lotus 123 software. If additional reports or compilations are needed, or anyone wants to question or comment, contact the Division of Library Development and Network Services, 566-2712.

DEFINITION OF AENGLC

*AENGLC Rank refers to an individual town's 1982-83 "Adjusted Equalized Net Grand List Per Capita." Rank is from 1 (wealthiest town) to 169 (least wealthy town).

This ability of each town to pay for library service is based on a combination of per capita property wealth and income wealth. (Property wealth, or the town's net grand list, must be equalized to be compared from town to town. Income wealth is defined as per capita income.)
